PETERSON WINS SMASHING VICTORY

SAVE $1400 IF INVESTIGATION IS DISPENSED

City Council To Send Post Cards To Lower Section Asking Attitude

Post cards with returns attached will soon be mailed to residents of the southern section of Daly City to inquire the attitude of citizens in regard to making a special assessment investigation into proposals relating to concrete curbs, gutters, sidewalks, asphaltic concrete street pavement, water mains and lateral sewers in that section of Daly City.

Following is a letter of explanation prepared by the city council which will be sent to owners whose properties will be affected by the investigation issue:

"You will shortly receive through the mail a return postcard in compliance with the Special Assessment

OUT OF COUNTY PUBLICITY FOR FLORAL FIESTA

Entertainment Features Of Celebration Are Increased

Plans for the San Mateo County Floral Fiesta, that will be held at Bay Meadows September 21 to 25, went ahead at full speed this week as a widespread out-of-county publicity campaign was mapped. Civic leaders rallied to the support of the celebration, and the entertainment program of the event was enlarged.

From Half Moon Bay came the encouraging news that Jack Harra, Coastside civic leader, will lend horses to the fiesta. Harra, incidentally, will be in charge of the horsemanship at the fiesta.

Meanwhile it was announced that the chorus that will take part in the pageant has been enlarged and there is a need for more male singers. With the opening of schools and junior college near, it was hoped to gain recruits from the ranks of dramatists and glee club singers from the schools.

Publicity for the fiesta will be done through radio stations, nationally known publications and by bill board advertising, supplementing the news that is being published regularly on the fiesta by weekly and daily newspapers in the county. This news is supplied through a committee of county newspapermen, according to Fiesta President Bruce Gibson, who pointed out that the celebration is a wonderful opportunity to advertise the beauties of San Mateo County.

LEGION INSTALL NEW OFFICERS WEDNESDAY EVE

Cut Commuter Tolls On Bay Bridge

New reductions in rates for automobile commuters making frequent trips over the San Francisco-Oakland bay bridge became effective yesterday.

Commute books ordinarily sold for $17.50 will contain twenty supplementary tickets in addition to the fifty-two regular tickets for September, each entitling the owner to a one-way trip across the bridge. The supplementary tickets will be good only after the fifty-two regular tickets have been exhausted, and will be accepted at the toll gates at a 15 cent discount.

Lodi Grape Festival To Draw Thousands

Central California's greatest community celebration, the fifth annual Lodi Grape and Wine Festival, will attract thousands of visitors to Tokayland on September 16, 17 and 18, when Lodi observes the start of the harvest and vintage season.

Three days of continuous entertainment are promised by the Festival Association, which is comprised of buisness men, grape growers and winery officials, ably aided by Lodi civic, service and fraternal organizations. Lodi's vine and wine fete is truly a community project, bringing together all factors in the grape and wine industry and the city in celebrating the products of nature's abundance.

Festival activities will get under way on Friday night, September 16, with the staging of an impressive queen coronation and outdoor program at the Lodi High School football field. From then through the colorful extravaganza, a lavish illuminated water carnival at Lodi

W. H. Clay Returned To Office 2 to 1

Judge Wade H. Clay, Justice of the Peace of the First Township, was returned to office in Tuesday's primary election by a two to one majority.

Judge Clay

Clay polled a total of 5133 votes to Benjamin's 2242. Daly City gave Clay a four to one margin rolling up 1783 votes for him to 495 for his opponent.

Night School At Jefferson High

The evening classes at the Jefferson Union High School will be resumed Tuesday of next week. Courses are offered in Americanization (for prospective citizens), English, stenography and typing, bookkeeping with machine calculation, and metal arts. These classes meet every Tuesday and Thursday from 7 to 9 p. m.

Last year the evening classes met with unusual success. The Americanization class gave ten new citizens to the community, while in the other classes the students increased their office efficiency in their respective lines of work.

Everyone interested is invited to attend and visit these classes. The students in the high school have been asked to tell their parents and neighbors about these opportunities, which are offered free of charge.

NEW COUNTY EXECUTIVE — FRED PETERSON

NEW ELECTED EXECUTIVE MAY TAKE OVER MANAGER POST IN COUNTY BY MID OF OCTOBER

Crosby Wins Coroner Fight Sagehorn Re-Elected Grant Leads

Col. Frederick Peterson of Burlingame is San Mateo County's first executive-elect. Results of Tuesday's primary election gave him a substantial margin over the incumbent, Executive Ernest A. Rolison.

Due to the clause in the charter amendments which changed the post from appointive to elective, Peterson may occupy the executive's chair by mid-October.

HAS BIG MAJORITY

Executive-elect Peterson commanded a majority of nearly 2700 votes over Rolison on the basis of complete returns from 239 of the county's 240 precincts.

A newspaper tabulation gave Peterson 17,128 votes to Rolison's 14,441. County Clerk Augustus' semi-official figures gave Peterson even a wider margin—17,241 to Rolison's 14,455.

Highlights of Tuesday's election which shared the spotlight with the Peterson victory were:

CROSBY VICTORY

1. County Coroner William F. Crosby of Burlingame, scored a smashing victory over his old rival and predecessor, Dr. J. C. McGovern, of South San Francisco. Crosby polled 17,714 votes to McGovern's 14,130, beating the latter in his own city by some 270 votes. The volume of Crosby's vote confounded the experts who predicted a McGovern victory because of San Francisco editorial attacks on the South San Franciscan's record.

2. Treasurer Al Sagehorn, whose job was also changed from appointive to elective by the charter amendments, led the rest of the ticket. He was returned to office with 7780 votes to spare over combined vote for his rivals, Fred Crumb of Redwood City and Emil Stein of San Mateo.

WARD LEADS

3. Mayor Allen J. Ward of Burlingame led the field for Burlingame supervisor, but must run it off in November with his nearest rival, Jack Lynch, Burlingame tire dealer. Ward's lead was close.

4. Melville A. Grant, who carried the blessings of retiring Supervisor James S. James, nosed out County Engineer Urban S. Marshall, but did not receive the necessary majority. He and Marshall must battle it out at the general election. W. W. Hendricks, who resigned as assistant engineer to run against his chief, ran a strong third.

5. Controller Ed Stack, criticized by the county grand jury because of his absence from office for nearly two years because of illness, staged a political comeback, leading his two rivals. Tom Kane, former San Mateo theatre manager, surprised by nosing out Roscoe Byrnes of San Mateo for second place. Stack and Kane will run it off in November.

Benefit Whist

The next big whist party for the benefit of Our Lady of Perpetual Help Church will be held in the Daly City Hall, September 16.

Many of the ladies, whose last name begins with the letter "S" are working hard to make it a success. Come early. Game starts at 8:30 sharp.

Annual Regatta Of Sea Scouts

The annual Sea Scout Regatta is near at hand again. Last year it was held at Redwood City, and this time it will be at Alameda. Labor Day, as usual, will be taken advantage of to constitute the three days, September 3, 4 and 5.

Ship No. 149 will be well represented by the majority of its Sea Scouts.

Saturday afternoon they will go over for the inspection and the same night will participate in the dance. On Sunday the trip will be made with the whaleboat to prepare for the sailing race in the afternoon, and on Monday, Labor Day, there will be all sorts of competitions on shore—such as knot tying, first aid, rigging up a breeches buoy, rowing, etc.

The Sea Scouts of Ship No. 149 intend to give a good showing at Alameda in the sailing race and other contests.

State Boosts PWA Applications

California has boosted its total number of applications for Federal Public Works Administration financial aid to 572, asking a total of $117,885,351 in outright grants and $27,584,487 in loans.

If all the money requested by the various communities should be allotted by Public Works Administrator Harold L. Ickes, it would assure the state of a record breaking public works program costing a grand total of $261,883,550.

It would also take up much of the slack in unemployment, according to Kenneth A. Godwin, PWA regional director, who asserts the 1938 PWA

STATE FAIR GIANT

The world's largest giant, 8 foot, 8½ inch Robert Wadlow of Alton, Ill., will appear at the California State Fair and Exposition at Sacramento on Friday and Saturday, September 2 and 3. The 20 year old giant, weighing 485 pounds, will take part in a childrens parade and miniature circus. Both days are **Childrens Days, when those under** sixteen are admitted to the fair free.

PRECINCT-DATE SET FOR SCHOOL BOND ELECTION

Plan To Build Earthquake-Fire Proof Single Story Structure

Jefferson Elementary School District Board of Trustees are calling for a $50,000 bond election to replace the 21-year-old Woodrow Wilson School Building with a one story earthquake and fire proof structure. State authorities have condemned the old building declaring that it harbors a number of serious hazards to the safety of school children.

The election has been set for Wednesday, September 21. Polls will be open from 6 a. m. till 7 p. m.

Due to legal preparations being rushed through for the election in view of the fact that a WPA grant may be available upon immediate application, only one precinct was set for the election. Woodrow School will be the polling place.

LOW TAX RATE SET THURSDAY BY SUPERVISORS

$1,167,996.23 To Be Raised For Fiscal Year 1938-39

In pursuit of the lowest possible tax rate on election year, the San Mateo County Board of Supervisors set the budget figure at $2,025,906.09. After a month of hecti cifguring, that was the final amount allowed by the board this week for operation of the county government from July 1 to June 30, 1939.

The levy, that portion of the budget to be raised by taxes, was set at $1,167,996.23.

The county's basic tax rate for 1938-39 was set yesterday. It slightly exceeded $1.11 per hundred dollars compared to $1.145 last year.

The $2,025,906 allowance will be financed by the levy and $857,909

D C RECREATION TRY HORSESHOE MARATHON TEST

To Play 50 Continuous Hours Is Hope Of Four Local Fans

It has been said there is nothing new under the sun. The Daly City Recreation Department challenges this statement in sponsoring a marathon hourseshoes tournament. Four local fans, George A. McLeod, William A. Maloney, Garland F. Seybold and Hartman F. Simmons have signed to enter the contest.

Play is scheduled to start on the Los Banos avenue recreation courts Friday evening, September 2, at 6:30 o'clock and will continue without stopping until 6:30 o'clock the following Sunday evening and possibly beyond the 50 hour marker.

Five minutes rest in each hour of play will be allowed partners, the remaining two contestants will continue playing during this period.

Singles, double ringers, games and mileage will be recorded. Regulation shoes and 40 feet stakes will be used and the contest played under standard rules.

In the event of a player dropping out, his place may be taken by someone else and the play continued as a threesome by the remaining contestant.

What is meant by well-trained children? That's easy. Well-trained children are youngsters who keep comparatively quiet in the evening while father is doing their home work.—Ed Scanlan in Buffalo Evening News.

Olson, Democratic Nominee for California Governorship

Piling up a commanding lead, State Senator Culbert L. Olson was assured of the Democratic nomination for Governor of California. Photo shows the nominee and his family (left to right) front row: Mrs. Olson, Senator Olson and his grandson, Richard Olson, Jr. 3. Top row: John Olson, Richard Olson, Mrs. Richard Olson and Dean Olson. The senator also sought the Progressive nomination. He was born in 1876 on a Utah farm of a Danish immigrant father and a mother of early American stock. He campaigned for La Follette in 1924 and for Roosevelt in 1932. He was elected to the State Senate in 1934, leading the Democratic minority that term and heading the Democratic State Central Committee.

Mr. and Mrs. George Hopman of Eastlake avenue returned Sunday evening from Los Angeles and Hollywood where they have been vacationing.

The regular monthly whist sponsored by the local order of Eagles will be held in Eagles Hall, Monday September 19. Lacey Harper will act as chairman.

Mrs. Rocha of Alexander street entertained, Wednesday evening of last week, in honor of her son, Terry, who celebrated his seventh birthday. Moving pictures were enjoyed and refreshments were served. The guests were Eunice Robison, Eddie Kelley, Mickey and Jeanine Estes, Marilyn Tacchi, Laurie Bacley and Raquel Rocha.

LOCAL BANK IN DRIVE FOR NEW LOAN CLIENTS

Will Provide Sound Type Of Credit Best Suited To Individual Needs

Carl E. Newman, local manager of Bank of America, announces that his institution has undertaken an aggressive campaign to acquaint the customers and friends of Bank of America with the bank's lending policy.

This policy, as explained by A. P. Giannini, chairman of the board of directors, is to provide the soundest type of credit best suited to the need of every individual and of every established business no matter how large or small.

According to Mr. Newman, the policy itself is not new, but advantage has been taken of liberalized government regulations to broaden the loan services of Bank of America.

Financial observers have noted that the bank has substantially anticipated the recommendations as to lending policies advanced recently by Jesse H. Jones, chairman of the RFC.

"We have always made sound capital loans to large and small businesses to the maximum amount permitted by government regulations," Giannini declared today. "Now that we have been able to broaden our services under the new rules we are calling attention to the full program of lending services available at the Bank of America in this community."

In reviewing the wide range of loan services available for individuals, commerce and industry, manager Newman pointed especially to plans which are particularly suited to the needs of business.

"The lending policy of Bank *of* America is to provide

the soundest type of credit best suited to the need of every individual and of every established business no matter how large or small. If any man or woman of good character and proved ability requires money for any worthy purpose—for business or for personal uses, no matter how specialized the need, Bank of America has, or will endeavor to provide, the type of credit that will be most helpful."

A. P. Giannini
Chairman of the Board of Directors

Bank of America has always made sound capital loans to large and small businesses to the maximum amount permitted by government banking regulations. Now Bank of America is pleased to be able to offer, through its 493 California-wide branches, a new, more liberalized lending service.

LOANS FOR SMALL BUSINESS

Small businesses may be generally divided into two classes—retailers and manufacturers. Bank of America has a special loan plan designed to meet the needs of both. The most common need of the small manufacturer is for working capital and capital for plant improvements. The retailer's problem is primarily one of ready cash to carry more receivables and a sufficient inventory. The manufacturer may avail himself of both the accounts receivable plan and the small capital loan plan outlined below. The retailer's principal problem may be solved by use of the small capital loan plan or a combination of this plan and FHA financing which, under Title I, permits modernization of property, the installation of new store fronts, fixtures, and similar improvements. Small capital loans for either retailers or manufacturers are available only to concerns which have been established for at least one year. For loans over $1000 a concern must have been established for a longer period. Loans may be made with or without security or endorsement, depending upon the amount and maturity of the loan. Loans of this type, however, cannot be made for the purpose of starting new ventures.

LONG TERM LOANS for *Commercial* or *Industrial* enterprises

Bank of America has a convenient method of making amortized time loans in bond or note form to business and industry. This type of loan is particularly well adapted to the concern desiring to expand its operations as well as those desiring to refinance existing obligations.

TERM LOANS FOR SMALL BUSINESS

Amount of Loan Desired	*Maximum Repayment Period*	*Minimum Annual Net Income Requirement**
$ 500	1 Year	$ 2,500
$ 500 - $2,000	2 Years	$ 5,000
$2,001 - $3,000	3 Years	$ 5,000
$3,001 - $5,000	5 Years	$10,000

*The term Minimum Annual Net Income Requirement means the net cash income of the business before depreciation and owner's withdrawals.

COMMERCIAL LOANS and lines of credit are available to any business with satisfactory credit. Bank of America's commercial loan department offers many exclusive features of service.

COMMODITY AND WAREHOUSE LOANS may be arranged through Bank of America on commodities and many types of inventory stored in public or field warehouses. This plan is especially attractive to concerns which must carry large stocks of raw materials.

ACCOUNTS RECEIVABLE FINANCING
Flexible working capital in any amount for manufacturers, wholesalers, jobbers

Bank of America's plan of financing accounts receivable is designed to meet the working capital needs of manufacturers, wholesalers, jobbers. Debtors are not notified and there is no interruption of regular routine. If you are not now discounting, you can free the cash you have invested in receivables and provide flexible working capital for all your requirements at a profit, and at the same time insure adequate capital when sales expand. Loans for capital purposes are also available to manufacturers, wholesalers, jobbers.

There is a Bank of America loan for every constructive need. . . . Inquire at your neighborhood branch.

Capital financing for doctors, dentists, hospitals.
Financing for every need of agriculture, production of crops, livestock, marketing and processing.
Financing for the oil industry, mining, manufacturing of all kinds.
Financing for automobile and household appliance dealers.
Loans to buy, build or modernize homes, stores or other property.
Timeplan automobile financing.
Timeplan personal loans for every family need.

available from other sources, including $550,940 in estimated revenues from other sources other than taxation, and carry-over fund balances of $343,542, from which is deductable $34,000 in "underestimated budget receipts."

NEW VALUATION

The new tax rate will be based on a net county valuation of $107,948,438, which allows for an anticipated tax delinquency of 4 per cent of the charge.

Two weeks ago, the tentative tax rate stood at $1.2483—ten cents higher than last year, as estimated by the county controller's office. A few days later, the board announced a "miracle" rate of $1.133 due to the "finding" of an additional $80,000 in fund balances which were applied to the budget, thus reducing the levy. Since last week, another cent and a half has been lopped from the $1.133.

At the final budget hearing, the board reduced the levy for the world's fair fund from $27,712 to $21,712. The tax for this item was cut from 2½ to 2 cents. No other changes were made.

Birthday Party Given For Five

Mr. and Mrs. N. Meeth of Westlake avenue entertained at a tea last Sunday in honor of five guests whose birthdays come during the month of September.

This affair, an annual occasion, usually is held in September, but due to the fact that one of the honored guests, Miss Pauline Meeth, granddaughter of Mr. and Mrs. N. Meeth, was to leave this week for college the tea was arranged earlier than usual. Other guests of honor were: Mrs. A. Meeth, Mrs. M. Kickbush, Miss Edith Lowns and Miss Leona Bade.

During the afternoon a wishing well was placed in the center of the living room around which the honored guests were invited to stand. Each made a wish and drew a gift from the well.

Mr. and Mrs. Leon Bade and daughter Leona, Mrs. M. Kickbush and son Arnold, Mrs. J. C. Bade, Miss Edith Lown, Mr. and Mrs. Paul Meeth and daughter Pauline, Clarence Finlof and Azalia Meeth completed the list of guests.

Woodrow Elects Student Officers

Pupils of the high eighth grade of Woodrow Wilson School elected officers, this week, for the fall term. Results were: Marguerite Rogers, president; Mary Rossoff, vice president; Earlyn Barker, secretary-treasuerer; and Fern Openshaw, class-representative.

These officers automatically become officials of the student body and members of the executive board. Student government has always played a vital part in training pupils of Woodrow to participate in and actually govern their own policies, under teacher guidance.

Announce Services At Colma Church

Religious services at Holy Angel's Church in Colma next Sunday will be: 7 a.m. Mass with the Holy Communion of the girls sodality, followed by Sunday school classes under the direction of the Sisters of the Holy Family and 9:30 a. m. Mass with music by the church choir and benediction.

During the week there will be a triduum of prayers in preparation to the Feast of the Nativity of the Blessed Virgin Mary to be celebrated on Thursday of next week. Sunday school classes under the direction of the Sisters of the Holy Family are held every Monday, Thursday and Friday of the week in the church after public school hours.

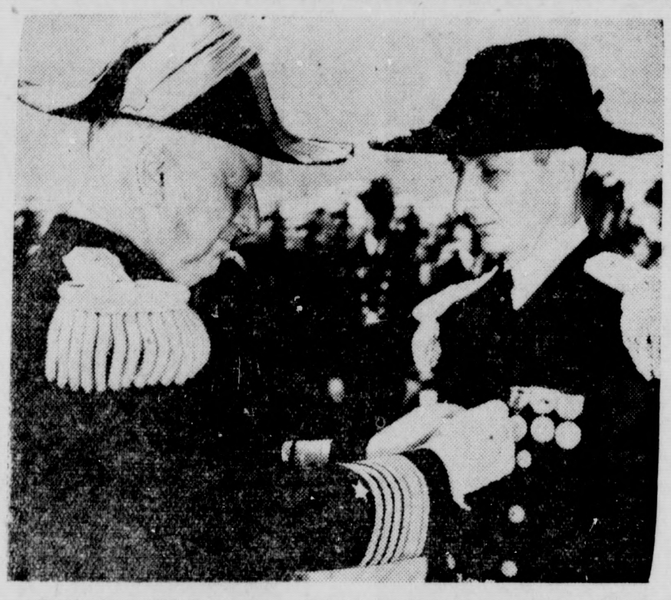
DO NOT RISK TOO LONG TRIP

Motorists! Here is a tip for your Labor Day trip: Don't try to drive too far in one day. The National Safety Council reports that many accidents happen when drivers fall asleep at the wheel, or when their attention to the road wavers because of fatigue. Plan your schedule so that you will be able to stop before you are fatigued. Highway driving takes constant attention. Don't risk your life and the lives of others by staying behind the wheel while you are drowsy.

Before you start make sure your brakes, steering, tires and windshield wiper are all shipshape. Don't wait until your life depends upon them before you discover that these essential parts of your car are not in good condition.

Constant vigilance is the price of safety. A careless driver not only risks the lives of his family and others on the highway, but he makes the trip a strain instead of a pleasure. Drive carefully and at reasonable speeds, and return home safely.—San Mateo County Traffic Safety Commission.

PANAY HERO RECEIVES NAVY CROSS



Declaring, "The whole world is reminded by your action that our Navy will stick by its guns," Admiral Edward C. Kalbfus pinned the Navy Cross on Lieutenant Arthur F. Anders for his bravery and heroic action during the Panay bombing episode. The ceremony took place on the quarterdeck of the U. S. S. Mississippi while the entire ship's company stood at attention. Admiral Kalbfus then read a citation by the Secretary of the Navy, which ended: "His action on this occasion characterized conduct far above and beyond the call of ordinary duty." The Mississippi rode at anchor in Los Angeles Harbor.

Will Enjoy Three Days Of Footing

At last the time has come. Careful plans are being laid for a long anticipated hike to Mt. Hamiton by the Boy Scouts and Sea Scouts of Troop No. 149. Approximately sixteen are going, plus the Scouters.

It it to be a three day hike, over September 3, 4 and 5.

It is not intended that the boys carry their own provisions; they are going purely for the adventure and the thrill of it. The food, etc., will be taken in a car beforehand. On arrival at each camp they will merely have to prepare it.

Part of the expenses will be paid by the boys and part will come out of the troop and ship treasury.

Catholic Daughters Honor Anniversary

Members of the Court St. Mary 1155, Catholic Daughters of America, joined with the Court of Lady of China in a birthday celebration at the Shanghai Lo Cafe in San Francisco's China Town last Sunday evening.

The following members attended: Chaplain Father James Doyle, Grand Regent Evelyn Weckerle, Ida Forrest, Christine Michelsen, Ethel Bolger, Katherine McDermott, Angelo Johnson, Kate Core, Elizabeth Wettstein, Mary Tripidi, Ann Talon, Margaret Fields, Margaret Roberson, Azilda Kohlman, Margaret Kohman, Josephine Reardon and Minnie Rancatore.

SAVE $1400 IF INVESTIGATION IS DISPENSED

City Council To Send Post Cards To Lower Section Asking Attitude

(Continued from Page 1)

Investigation, Limitation and Majority Protes Act of 1931. It will effect a saving of approximately $1400 if the formality of compiling a report under the statute is dispensed with. If you will at once return your card stating that you do not demand such investigation, the work of improving your street frontage will be expedited considerably and at less expense to yourself.

"The city engineer estimates that with PWA contribution, the entire cost of concrete curbs, gutters, sidewalks, asphaltic concrete street pavement, water mains and lateral sewers, will be $..... for your property. This work normally, (without PWA aid) would cost nearly double the present price if done under ordinary conditions. Please consult with your neighbors and some of those who attended the recent protest meeting at the City Hall to further inform yourself of the situation or in case of any doubt, contact the undersigned mayor of the City of Daly City, R. A. Rapsey, the city attorney, or the office of George A. Kneese in Redwood City."

State Boosts PWA Applications

(Continued from Page 1)

revival in heavy construction is bound to contribute abundantly to the cause of restoring economic normalcy throughout the Far West.

"Many thousands of men, at present idle, will be back at gainful occupations on PWA projects at an early date, and by next January 1 a peak in re-employment through this agency should be reached," he declared here recently. "Already the dirt is flying on dozens of these business stimulating public improvements and we expect several hundred such big construction enterprises to be under way full blast by mid fall."

Up to recently, Administrator Ickes had made 319 allotments to California. These totalled $29,265,548 in grants and loans, and all of this federal money becomes available to the local communities on the very day they meet all the regular legal requirements.

"There is no delaying on the part of PWA," added Director Godwin. "We are devoting ourselves to speeding up all along the line, because our main objective is to get men back to work at the earliest possible moment throughout this region."

HELP YOURSELF TO PROSPERITY

No matter how much the horn of plenty holds, some people never manage to get their share.

But the chap who knows what he wants and goes out after it is usually successful.

So it goes with cities, too.

Some cities never get out of the rut.

But the city that knows what it wants and works for it never gets left out when the prosperity checks are passed around.

Get this important point: You can't enjoy prosperity unless your home town is enjoying it. Farmers will tell you that you can't fatten a cow on sage brush. Your success is limited by your environment—every time.

Help your city to prosperity if you want to help yourself to it. Keep your money at home. Save some of it. Invest some of it in local enterprises. Spend the rest with home town merchants. They give you more for your money and return it to you by doing likewise.

Be a booster and a worker for civic prosperity. Sanction and advocate anything that will improve our city and that will make it a better place to live in, and attract outsiders and outside dollars to it.

A city that has the respect of its inhabitants commands the respect of everyone else.

We can't be self-respecting unless we are self-sustaining. Your job and ours is to sustain home town industry and business by trading at home and to attract outside dollars by a program of loyalty and progressive civic improvement. Prosperity in full measure will then come to each and every one of us as the day follows the night.

EXPERIENCED HOUSEWIFE CLUB

(By Maude LaRue Ives)

GLAZED CARROTS

(From Mrs. F. H. Rickmann)

Small carrots
Salted water
1 teaspoon sugar (white)
Brown sugar
Butter

Cut carrots in halves or quarters, depending on the size lengthwise. Boil them in salted water, with the teaspoon of sugar added. When tender drain and place in a baking dish. Sprinkle with brown sugar and dot with butter. Bake in a hot oven until nicely glazed, about 15 minutes.

STUFFED JELLIED TOMATOES

(Contributed)

6 tomatoes
2 tablespoons gelatin
½ cup cold water
2 cups boiling water
2 tablespoons lemon juice
1 cup cooked green peas
½ cup sliced stuffed olives
2 cups diced cooked ham
Salt and pepper
Lettuce

Scald, peel and chill the tomatoes. Remove slices from top and hollow out. Sprinkle a little salt in each and turn upside down to chill. Soak gelatin in the cold water for 5 minutes and dissolve in the boiling water. Chill. Add the lemon juice, peas, stuffed olives and ham, with salt and pepper to taste. Fill centers of tomatoes and set in refrigerator until firm. Quarter or serve whole on a bed of lettuce with mayonnaise. Six servings.

MULLED CIDER

(Contributed)

1 quart cider
1/3 cup light brown sugar
1 teaspoon cloves
⅛ teaspoon allspice
3 sticks cinnamon
Few grains salt
Speck nutmeg

Mix sugar and spices together; add cider and bring slowly to boiling point. Boil 10 minutes. Strain through wet cheesecloth and reheat. Serve in hot cups. Serves six.

HOT GRAPE JUICE

(Contributed)

4 cups grape juice
2 cups cold water

Place in sauce pan. Bring slowly to boiling point. Serve in hot cups with slices of lemon in which cloves have been inserted. This gives a nice spicy flavor to this hot drink, which is delicious served afternoons with dainty sandwiches or cake. Serves 8.

GINGER SNAPS

(Contributed)

1 cup sugar
1 cup molasses
1 cup butter
½ cup milk
2 teaspoons soda
1 scant tablespoon ginger
1 teaspoon salt
Flour

Boil together the sugar, molasses and butter. When cool add the milk in which the soda has been previously dissolved, the ginger and the salt. Add flour enough to roll out. Chill. Roll thin. Bake quickly at 350 degrees. These snaps will keep a long time if kept closely covered in a warm and dry place.

MAN MADE ISLE PROVIDES DEAL OF WONDERMENT

President Catches First Glimpse Of Phenominal Architecture And Construction

Treasure Island, the man-made isle in San Francisco Bay, where President Roosevelt on his recent tour caught his first glimpse of the Golden Gate International Exposition of 1939, is as full of significance as it is of sand. That's pretty full, for the island consists entirely of sand, sucked up from the bottom of the Bay to form a level expanse of more than 400 acres, where two years ago was only water. It is a giant's sandpile, and giants are at play on it. Giant tractors pull giant plows and scrapers across its surface, gouging out lagoons and levelling off broad plazas. Giant buildings of picturesque design are rising on every hand. In the center is a giant tower, and on the tower's crest a giant bird, the Phoenix. The Phoenix, you will recall, has the happy faculty, after being consumed in fire, of rising from its own ashes. That is what San Francisco did no less than four times in the first five or ten years of its existence, and again as recently as 1906. Yes, the Phoenix on the top of the tower has signifcance, and he also has plenty of sand, literally and figuratively speaking. For there he sits, nearly 400 feet in the air, surveying a fairy city—although a sandy one at present — which has sprung up almost overnight not from ashes, but from salt water.

The very situation of this island—one of the most interesting of the many islands that Franklin D. Roosevelt has visited—is significant. It looks out through the Golden Gate upon the world's broadest ocean, as many another pioneer has done, radiant with hope and conscious of its power. It has summoned the nations of the wide Pacific rim to meet within its limits, to display their wares and their cultures, and to chat pacifically. It has provided an "acre" of peace, where even warring nations may send their emissaries of good will. By the time the Exposition opens next February, the island will have lost entirely its sandy desert aspect, and have taken on the atmosphere of a peaceful garden. Even now, a layer of black loam has been spread over a large area and plants which were set out by thousands only a few weeks ago are already flowering to form the pattern of a gigantic carpet. The thousands of palms and trees which have been floated on barges to the island from parks and gardens up and down San Francisco Bay are taking firm root in their new soil, giving a foretaste of the luxuriance to come. It doesn't take long to make a garden in California.

This island is not a pretty dream, to be forgotten when the Fair is over. The impressive million-dollar building of semicircular design where President Roosevelt was entertained at luncheon will be San Francisco's air terminal, after a year's duty as administration building of the Exposition. The broad acres of Treasure Island will be the city's airport, within five miles of the business and financial center. It is not only during the Fair that Treasure Island will be a meeting place for all the Western lands and the Far East. After all the temporary buildings are removed, the island will become the air crossroads of the Pacific. The big air-terminal building curves hospitably inward from the Golden Gate, as if to welcome the nations to its embrace. And that's significant. Not only for 1939, but for the future.—Christian Science Monitor.

SHIP OF DESERT STORES UP FOOD

There are two distinct species of camel: the Arabian camel, having one hump; and the Asiatic camel, having two humps. The ability of the camel to carry heavy loads and to endure long, hard journeys over desert sands, early opened huge areas in Africa and Asia in which it would otherwise have been impossible to have commerce and travel.

Part of the camel's secret lies in its foot. The sole consists of a tough, spongy pad which spreads when the camel's weight is put on it, enabling the camel to walk on the deep sand without sinking, which a hard-hoofed animal could not do.

The ability of the camel to endure days of effort without food or water comes from the fact that it carries a reserve supply of each. The stomach of the camel has three main compartments. The first two have great numbers of small, narrow mouthed pouches in the stomach walls. These pouches or pockets hold additional water, upon which the camel draws by means of involuntary muscles, providing the stomach with just enough water to maintain vigor.

The humps have nothing to do with the camel's water supply. They are solid, made of muscle and fat, and provide stores of reserve nourishment for the camel. At the beginning of a journey the hump or humps are plump and firm; but after a strenuous trip over burning sands without food, the humps become lean and shrunken, for their fat is used up to provide strength and nourishment for the camel.

HUGE PLANET SWEPT BY STORMS

As Jupiter, biggest of the sun's family of planets, swings into position for its annual opposition, astronomers are training their telescopes on the vast area of turmoil in the chill, poisonous atmosphere of the earth's larger neighbor. Violent changes are seen as the titan spins dizzily on its axis. Storms, marked by intricate detail in bands or belts across the 88,000 mile diameter. These storms extend from far into the southern hemisphere to an equal distance in the northern portion. This sketch by Arnold Mountfort was made at Griffith Observatroy, in Los Angeles. It shows the storm bands and also, at left, is one of Jupiter's moons casting a pin dot shadow on the planet's surface.

Will Lead World's Largest Parade

Miss Elaine Russell of Vicksburg, Miss., brunette beauty acclaimed by Legionaires the nation over as "Miss American Legion," who will appear in this city with the Mississippi Legion caravan en route to Los Angeles, where for the second consecutive year she will lead the national Legion parade. Miss Russell, who is acting as personal representative of Governor Hugh White, will convey the Mississippi chief executive's greetings to governors of many of the sixteen states included on the itinerary of the caravan. The caravan, which is making the 5750 mile trip to the coast and return includes five elaborately decorated floats which will head the Los Angeles parade by virtue of Mississippi's having enrolled more members in the Legion proportionately than any other state.

HOW'S BUSINESS?

Business is made largely by sentiment, and yet we think sentiment is made by business. A man doesn't feel the way business looks; business looks the way a fellow feels.

We have known men who felt so sure of an order that they got it because they felt so sure of it; and we have known fellows who lost an order because they were afraid they would. "As a man thinketh, so is he," and as he thinketh so sometimes, to some extent, is his business.

This is no time to earn your bread and butter by looking at it butter side down.—Anon.

Notice Inviting Sealed Proposals For Purchase Of General Obligation Bonds Of The City Of Daly City

NOTICE IS HEREBY GIVEN that the City Council of the City of Daly City will receive bids or sealed proposals for the purchase of general obligation bonds of said city in the principal amount of $34,000.00. Said bonds are all of one issue, designated "City Hall Construction Bonds" and are of the type known as "serial", the last of which mature July 1st, 1949.

Bids will be received by said City Council not later than eight (8) o'clock p. m. on September 12th, 1938, at which time bids and proposals will be opened and examined by said council at the council chambers in the City Hall, Daly City. All bids must be accompanied by certified check or cash in the sum of not less than ten (10%) per cent of the amount thereof as a bond guaranteeing performance of the bidder in accordance with his bid or offer. Bonds will be sold for not less than par plus accrued interest. Bidders shall specify rate of interest to be paid on all or portions of said bond issue. Interest shall not exceed five (5%) per cent per annum. The City Council reserves the right to reject any and all bids. Ten days shall be allowed for examination and comparison of bids by said city council. Reference is hereby made to Ordinance No. 212 and Resolutions Nos. 628 and 629 of the city council, as the same are on file in the office of the City Clerk, for further particulars.

DATED: August 25th, A. D. 1938.

PECULIARITIES OF MAGNETIC POLES ARE EXPLAINED

The places on a magnet where the attraction seems concentrated are called the poles of a magnet. In straight bars of magnetized steel, the poles are at the ends. If a bar magnet is suspended or pivoted so that it is free to turn horizontally, it will swing slowly around until it comes to rest in a north and south position. The pole of the magnet which points to the north is called the north, or north-seeking pole. The other pole is the south pole.

If the south pole of a second bar magnet is brought near to the north pole of the pivoted magnet, the north pole of the latter will swing toward it. But if the second magnet is turned end for end, and its north pole brought near the north pole of the pivoted magnet, the north pole of the latter will swing away. Thus it is seen that unlike poles attract, and like poles repel.

This globe on which we live is itself a huge magnet, and causes any magnetized bar or needle, which is free to turn, to swing around until it points roughly to the north. The needle points to the earth's magnetic pole, and the magnetic and geographic poles do not coincide.

The north magnetic pole is located in the Boothia Peninsula, north of Hudson Bay and some distance from the geographic north pole; and the south magnetic pole lies almost due south of Sydney, Australia, and is about 1800 miles from the geographic south pole. This difference results in what is known as the magnetic variation of declination of the compass. The declination, even for a given spot on the earth's surface, varies over a period of years, because the earth's magnetic field is not stable. Its instability is due to the influence of our sun, which is also a magnet and is many times more magnetically powerful than the earth.

Iron and other metals, and the presence of electricity in ships, and magnetic rocks on land (such as the approaches to Cape St. Francis, Labrador, and the coasts of Madagascar and Iceland) reuslt in further compass disturbances, known as the deviation of the compass.

Both the declination and the deviation of the compass must be taken into consideration by mariners, with the result that the charting of a ship's course across the trackless ocean is rather a complicated matter, even with the aid of a magnetic compass.—W. P. Keasbey in Christian Science Monitor.

STORK SHOWER

A merry group of friends gathered at the home of Mrs. B. McNerney of Willets street, Wednesday of this week, where they tendered Mrs. T. Cordelos of Oliver street a surprised stork shower.

The table center was a large bouquet of orchid pompom dahlias. The honored guest received many lovely gifts for the expected little stranger.

The guests included Mesdames Annamae Cordelos, B. McNerney, Josephine McHugh, Etta Mehan, Carrie Norry, Margaret Prescott, Virginia Davidson, Viola Barton Katie Sadler, Edith Frazier, Lillian Yates, Bertha MacCarthy, Emma Ledterman, Angie Del Grande, Helen Peck, A. Going Up!

On a recent Tuesday night seven Sea Scouts from Ship No. 149 attained the rank of "Able," the third and next to highest rank in Sea Scouting.

A week or so previous four more of them achieved the same goal.

This advancement, therefore, of over nine Able Sea Scouts makes Ship No. 149 a First Class Ship in accordance with the rules of the council.

LEGION INSTALL NEW OFFICERS WEDNESDAY EVE

Seven Comrades Presented Awards For Outstanding Service In Past Year

(Continued from Page 1)

badges for continuous service as adjutant and historian respectively. Year bars were presented to Felix Chapman and Felix Foreman to add to their many bars already received for continuous service.

A gavel made by Comrade Trier was presented to the new commander and a beautiful past commander's cap insignia was presented to Past Commander Jakobsen for outstanding work in membership and ways and means during the past two years. A twenty year star was presented to Comrade Chapman for having held twenty years of continuous membership in the American Legion. District Commander Lee Williams presented Past Commander Jakobsen with his past commander's badge.

GUESTS

Distinguished guests included District Commander Lee Williams, Sous Grand Cheminot R. L. Crane, Chef de Gare of the 40 and 8 Larry Reilly, District Commander-Elect Cleo Miller; Gerry Glanville, president of Daly City Unit, American Legion; Marcia Trier, president of Edmond Parrot Chapter of the D.A.V. Auxiliary, and Ed Trier, commander of Edmond Parrot Chapter D.A.V. Also members of the district drum and bugle corps were present and assisted in the ceremonies.

The executive board will hold a meeting in the Legion Hall Thursday evening of next week at 8 p. m.

LOCAL BANK IN DRIVE FOR NEW LOAN CLIENTS

Will Provide Sound Type Of Credit Best Suited To Individual Needs

(Continued from Page 3)

pand operations as well as concerns desiring to refinance existing obligations. For example, a three year loan to retire the remaining portion of an outstanding bond issue was secured from Bank of America by one of California's largest utilities.

For small businesses, term loans are available in amounts from $500 to $5000, repayable in from one to five years, depending upon the circumstances. Primary purpose of these loans is to furnish working capital for established businesses, not to finance new ventures or liquidate past due indebtedness to creditors. They do not replace ordinary seasonal financing, which will be handled as in the past.

An "accounts receivable" plan also is offered, to provide working capital in any amount to manufacturers, wholesalers and jobbers. Customers of firms using this plan are not notified and there is no interruption of regular routine. But because cash invested in receivables is thus freed, borrowers are placed in a position to take advantage of cash discounts, expand sales into new territories, launch new projects, reduce costs through greater volume of production, and provide money to pay the various taxes and other fixed charges.

"We seek to render every possible aid to every type of sound, established private business enterprise," declared manager Newman. "No effort is being spared by Bank of America to thoroughly apply itself to the task of serving the financial needs of this community and the area it serves."

Church Of Christ Sermon Subjects

Lloyd E. Ellis, minister of the Church of Christ, Jules and DeMontford avenues, San Francisco, announces his subject for Sunday morning, "A Peculiar People." At 8 o'clock, Sunday evening, the subject of the discourse will be "Remember Now Thy Creator."

Many visitors have been present during the meeting which closes Lord's Day. Last Sunday a new class was started for young men and women with the minister as teacher. This Sunday another class is to be started for boys and girls in the "teen" age. Another study group meets at 7:30 on Sunday evening. The Ladies Bible Class meets each Thursday afternoon at 1:30. The public is extended an invitation to attend meetings at the Church.

FAMOUS ANNOUNCER SIGNED FOR SAN MATEO FIESTA

An announcement was made this week by officials of the event that Abe Lefton, world-famous horse show announcer and master of ceremonies, has been signed to appear at the San Mateo County Fiesta and Rodeo to be held in San Mateo on September 21, 22, 23, 24 and 25. Lefton, who has emceed horse show events at the California State Fair, the Pomona Fair, Madison Square Garden and White City Stadium in London, is popular among sports fans throughout the West. He has recently been signed by the Gilmore Oil Company as official announcer and is accompanying the new Gilmore sound car on a tour of the leading California horse shows, rodeos and fairs this summer. His versatility at the microphone, combined with a knowledge of horses and a flair for showmanship, is expected to add considerable color to this year's events. Pictured above is the streamlined Gilmore sound Car with inset of Abe Lefton.

DALY CITY HAS ONLY LOST ONE BASEBALL GAME

Last Saturday's Victory Makes Score Of Wins Ten Out Of Eleven

The Daly City Recreation baseball team went to town again last Saturday afternoon when it defeated the Golden Gate All Stars from San Francisco, by the score of 6 to 4, in a closely contested game.

For the benefit of those fans who did not attend the game, it may be interesting to learn that the home team completed five double plays during the session, which goes to show the work that is being done by a team Daly City should well be proud of.

This season the Daly City outfit has played eleven games and won ten of them, losing a game to Fort McDowell two weeks ago, and Manager Pat Sloan says they would have won that one had it not been for the fact there was a terrifically short right field on the Fort diamond and that the opposition had eight left handed hitters on the team. Everything over the fence went for two bases, which was a handicap not to be overcome by the Daly City boys as there is only one left handed swat artist on our team.

The hitting feature of the last game was Eddie Owens' circuit drive in the fifth inning when he slapped one up against the fence at the tennis court, sending Walsh across the plate ahead of him.

In the fifth inning Manager Sloan, in an attempt to nab a foul tip, tore his finger open and had to have medical attention, as it was necessary to have the injured member sewed up.

Next Saturday, tomorrow, afternoon, the representatives of the Pacific Telephone & Telegraph Company, one of the strongest semi-pro teams in San Francisco, having won fifteen of the last seventeen games played, will be the guests of the Daly City aggregation, so it will be a game well worth seeing.

Turns Out 500 Archers For Film

Teaching 500 men to be proficient archers in two weeks time was one of the strangest of Hollywood's many strange assignments.

It fell to the lot of Chester Seay, one of America's foremost archers.

The job was doubly difficult because he had to teach his pupils—American cowboys, Indians and Mexican vaqueros—to handle the short curved bows with which the Asiatic hordes of Genghis Khan and Kublai Khan scourged the earth seven and eight centuries ago.

These men were being trained to play the roles of Mongol warriors in Samuel Goldwyn's rollicking historical romance, "The Adventures of Marco Polo," which stars Gary Cooper at the Daly City Theater on Sunday.

Seay, who is filmdom's foremost bow and arrow man, earns a living by supplying primitive weapons to movie companies and then instructing actors how to use them.

He handled the archery assignment for such films as "The Crusades," "The Warrior's Husband," "The Sign of the Cross" and "Cleopatra."

Although he was able to make the motley collection of bravos chosen for the battle scenes of "The Adventures of Marco Polo" look like archers in two weeks time, it takes years of constant practice to make a real archer, according to Seay.

"It is one of the most difficult, yet at the same time most fascinating hobbies I know of," he says.

"Research has shown that the Persians could shoot an arrow 900 yards. We used to doubt it, regarding it as a fantastic story. But not any more. Within the past six years we've increased the American archery record from 300 to 614 yards."

Lovely Sigrid Gurie, who makes her screen debut as Princess Kukachin, Gary Cooper's sweetheart, in "The Adventures of Marco Polo," had to learn how to shoot arrows because Robert E. Sherwood, author of the screen play, wrote into it a piece of business wherein the beauty first makes the acquaintance of Marco Polo by nearly hitting him with an arrow. Also on the same program you will see Jane Withers in "Rascals."

REVIEWS ROAD IMPROVEMENT IN MANY STATES

Fifty-four per cent of the state highways in the United States are now all-weather improved roads, and ten states have surfaced more than ninety per cent of the highway mileage in their state systems, it was pointed out in a statement recently by Francis Carr of Redding, president of the California State Automobile Association.

Carr listed the ten states which have surfaced more than ninety per cent of their state highways as follows: California, Connecticut, Delaware, Illinois, Indiana, Maine, Maryland, Massachusetts, New Hampshire and New York. In Delaware and Massachusetts, the state highways are one hundred per cent surfaced, while in California and Maryland the ratio of surfaced state highways to total mileage is ninety-nine per cent.

The statement, Carr said, was based upon figures furnished to Congress by state highway officials. He commented that some of the states undoubtedly have made further progress in surfacing their highways since the reports to Congress were prepared.

"For the country as a whole," Carr continued, "there are 44,765 miles of roads in the state systems. Of this total, 120,216 miles represent pavement and 122,633 a treated surface. Thus a total of 242,849 miles, or fifty-four per cent, are al-weather improved highways."

Pointing out that state roads, that is, systems built and maintained by the state, are the basis for the federal aid system, the motor club executive expressed the belief that continuation of the federal aid program will be a vital factor in developing new and more modern highways in all states.

DENSE JAVA

Java, a tropical island with approximately the same area as Pennsylvania, has three times as many inhabitants.

Long Hair Will Be In Fashion

"Shades of the Gay 90's—long hair is coming back."

At least it will be very much in evidence on Woman's Day at the California State Fair and Exposition, Wednesday, September 7, as the first ladies long hair contest held in fourteen years will be one of the features of the day.

For women over 18 years of age, hair will be judged on length, thickness and eveness, color, luster and beauty. First prize will be $50 and a gold medal; second, $25 and a silver medal, and third, $10 and a bronze medal.

By buying at home you stimulate the progress of your community.

Lodi Grape Festival To Draw Thousands

(Continued from Page 1)

Lake Park, the festival will provide a steady succession of outstanding entertainment features.

Included in the three day program are two parades, a kiddies' display on Saturday morning, September 17, and the great festival parade the following afternoon, in which floats, bands and marching units from many California cities will participate. The queen's coronation ball, Friday night, and street dances are other outstanding attractions.

Sports will be in full swing throughout the week end jubilee, listing such notable events as regularly sanctioned outboard motorboat races, district championship motorcycle races, a titular swimming meet, baseball and softball games, golf tournament and a complete air show.

Among the interesting sidelights of the festival will be conducted tours through the fertile vineyard sections and inspection of Lodi's sixteen wineries.

Crocker P. T. A. To Hold Executive Board Meeting

Mrs. Virginia Davidson, president of Crocker P. T. A., announces an executive board meeting at her home 581 Hanover street, Thursday, September 8. This meeting will be called to plan for the next regular meeting, which is to be held the following week. The women are requested to bring their sandwiches and come prepared to sew from about 10:30 until luncheon is served, after which the board will meet.

More than a dozen members of the Sew and Sew Cub enjoyed the hospitality of Mrs. Jordan, Thursday of last week. Mrs. Jordan's well known hospitality always draws a large turnout and the women hope that the large gathering foretells the number of members who will attend these meetings which will be held each week for the next few months.

Breaking his previous record for banana eating, Mervyn Walmsley of Coraki, Australia, recently devoured 52 helpings of the fruit in 20 minutes.
